## Wanted: Quality-Education, Quality-Training and Quality-Control Person

Sano y Salvo • Safe and Sound is a small farmers association in tropical humid SE Nicaragua. We will start in late 2006 **on-farm processing** like cocoa fermentation, lemon grass extraction, vanilla processing; and drying of up to 20 different organic products; the aim is organic and general quality, uniformity of the produce, secure packing and transportation etc.

**We need a person** to educate, train and supervise the farming families in on-farm quality processing. Soon processing at the central plant will be included (means: teach local staff). Your IFOAM background would be a + ...

**The job demands:** good Spanish! Knowledge and practical experience in quality education and control, team work with farmers (women and youth play an important role at least in this part of the production process) and other foreign staff. We need no "sabe-todo", nor somebody who wants to improve his own profile on that job, but somebody able to adapt to maybe very different conditions and circumstances and truly dedicated to work with Third World, economically poor and 40% illiterate small farmers and their families. Frequent farm visits are necessary; rough travel conditions (trucks, walking, mules, boats), 9 months rainy season. 280 km to Managua, 6 hrs to Bluefields. Local public and private schools. Electricity, tap water, cell phones, internet, cable-TV: **yes, but:** Deficient local health services, high tech hospitals in Managua. For more, visit our website (in English it's [www.eco-index.org/ong/sys-ni-eng.html](http://www.eco-index.org/ong/sys-ni-eng.html)) and search for "Nueva Guinea Nicaragua" with a search machine, or look up Sano y Salvo foto albums at [www.pixum.de](http://www.pixum.de) or see <http://www.manfut.org/RAAS/index.html>.

**Contract & payment:** when you and we agree, we look together for an adequate personnel agency for development workers, to get a contract for 2 or 3 years, and the corresponding payment, transportation, social services and insurance.

**Write soon, send CV and any other important detail.**
